

## Ceri Davies – Houston Geological Society – Biography

With a warm welcome I appreciate the nomination for the Editor – Elect role with the Houston Geological Society. Growing up surrounded by the natural world at its best along the coastlines of Wales, I became endeared to the curiosity geology could bring to everyday life.

I have continued that curiosity through my education in Liverpool and followed my career to the largest collection of geologists globally. I enjoy the diversity the Houston Geological Society brings, from the insights of West Texas to the next wildcat adventure offshore. Houston harbors and supports a geologists dream like no other city can.

I look forward to working with the Society and its members to continue in providing the material, presentations and opportunities to keep the curiosity alive.
